

MENTORING PROGRAM: EXPRESSION OF INTEREST

About the Program

The AAHMS Mentoring Program provides health and medical scientists an opportunity to benefit from support, advice and career development from a Fellow of the Academy.

It is designed to assist health and medical scientists who are well on their way to completing their formal qualifications, and typically will have begun to build their science and research experience.

However, just as the Fellows of the Academy come from a rich variety of backgrounds, qualifications and experience, so there will be diversity in the backgrounds, formal qualifications and experience of those admitted to the Academy Mentor Program.

The Academy will take a flexible approach, rather than applying a prescriptive template to applicants for admission to the Program.

It is designed to assist

- experienced graduates in clinical (medical, allied health, nursing) disciplines, who typically will have made substantial progress towards formal qualifications (such as Part 1 or equivalent fellowship training completed for a medical specialist/GP Fellowship) and who want to be involved and trained in research;
- pre-doctoral (graduate) researchers, including current PhD candidates, with substantial research experience in clinical or non-clinical aspects of health and medical disciplines
- postdoctoral researchers in related (clinical or non-clinical) disciplines, related to health and medical sciences.

Those included in the Program may have backgrounds in basic sciences, clinical practice, public health, health services, health program management, health policy, economics, statistics, epidemiology or other disciplines, applied to health and medical science.

To become a Mentor, please complete the following EOI and submit to mentorship@ahms.org, or complete the form online at <http://bit.ly/ahms-mentorship-eoi>.

MENTORING PROGRAM: EXPRESSION OF INTEREST

Expression of Interest to become a Mentor

Given name/s	
Surname	
Primary email address	
Preferred telephone number	
Which state do you reside in?	
<input type="checkbox"/> ACT <input type="checkbox"/> NSW <input type="checkbox"/> NT <input type="checkbox"/> QLD <input type="checkbox"/> SA <input type="checkbox"/> TAS <input type="checkbox"/> WA	
Do you visit another state regularly? If yes, which state/s?	
<input type="checkbox"/> ACT <input type="checkbox"/> NSW <input type="checkbox"/> NT <input type="checkbox"/> QLD <input type="checkbox"/> SA <input type="checkbox"/> TAS <input type="checkbox"/> WA	

What is your primary discipline?	
What is your research focus?	

Apart from your primary discipline and research focus, what areas of expertise can you/would you like to Mentor in?	
<input type="checkbox"/> Clinical Trials	<input type="checkbox"/> Collaborating with industry
<input type="checkbox"/> Creating a research speciality	<input type="checkbox"/> Developing a strong publication record
<input type="checkbox"/> Dealing with ethical and moral issues within research	<input type="checkbox"/> Managing internal politics and challenging work relationships
<input type="checkbox"/> Media engagement	<input type="checkbox"/> Moving into a new research field
<input type="checkbox"/> Navigating the research policy arena/working with government	<input type="checkbox"/> Patient engagement
<input type="checkbox"/> Public engagement and science communication	<input type="checkbox"/> Refocusing your research speciality
<input type="checkbox"/> Retraining skills	<input type="checkbox"/> Returning to academia from industry
<input type="checkbox"/> Successful grant applications	<input type="checkbox"/> Teaching
<input type="checkbox"/> Working on large/international collaborations	<input type="checkbox"/> Work/Family balance
<input type="checkbox"/> Other (please specify)
